Microchip Success Story

Why should you microchip your pet? Here is a good reason why... Pepper is an 18-month-old Border Collie owned by Frank. She went missing mid-September in **Snoqualmie**. Six weeks later she was found by a good samaritan in **Puyallup** and picked up by one of our officers. Fortunately, Pepper is microchipped! Frank made it here in record (but safe) time. It's obvious from the pictures that it was a joyous reunion for both!

So, why should you microchip your pet? Just look at these photos!

Metro Animal Services is having a microchip clinic on **Thursday, November 10th between 10:00 am and 4:00 pm**. It is sponsored by Friends at Your Metro Animal Shelter so the microchip is free for all licensed pets.

Place: Metro Animal Shelter, 1200 39th Ave SE, Puyallup, WA 98374

Visit the shelter online at: [wwwMetroAnimalServices.org](http://www.MetroAnimalServices.org)

Contact them at: 253-299-PETS (7387)
